

IT & AI Project Report - Project Horizon

Information Technology Department

Date: 2026-06-02

Project Overview

Digital transformation: ERP upgrade, local AI knowledge assistant (intern project), and IoT integration in Thane plant.

AI Knowledge Assistant Sub-Project

As part of Phase 2 of Project Horizon, an intern-driven initiative has been launched to build a Local Enterprise Knowledge Assistant. The system is being developed by Sambodh Gupta from IIIT Manipur under the mentorship of Arjun Menon, IT Head.

The system will ingest documents from multiple sources - PDFs, Word documents, Excel sheets, emails, and SQL databases - and allow employees to query the knowledge base using natural language. All processing happens on-premise with no data leaving the company network.

Technology Stack

- Connector modules: pdfplumber, python-docx, openpyxl, sqlite3
- Metadata tagging: LLaMA 3.1:8b via Ollama (local inference)
- Embeddings: BGE-M3 (sentence-transformers)
- Vector database: ChromaDB (persistent, local)
- UI: Streamlit dashboard
- Hardware: NVIDIA RTX 3050 6GB (local GPU inference)

Timeline

- Phase 1: ERP Assessment: Completed - Due 2025-08-31
- Phase 2: AI Knowledge Assistant: Active - Due 2026-07-31
- Phase 3: IoT Sensor Integration: Pending - Due 2026-12-31

Budget

Approved Budget:	Rs 1,800,000
Spent to Date:	Rs 420,000
