Method

1. To make dough: Mix flour, salt and 1 cup water. Add enough of remaining water (6 tablespoons), 2 tablespoons at a time, mixing after each addition, till dough forms a soft ball (stop adding water before dough becomes wet and sticky). Knead till dough is smooth and elastic (about 2 minutes). Keep covered with a damp cloth about 30 minutes.
2. To make filling: Grate cauliflower. Mix cauliflower and salt. Keep aside 15 minutes. Squeeze out and discard water. Add remaining ingredients. Mix.
3. Rub hands with a little ghee. Knead dough briefly. Make 12 balls about 4 cm in diameter. Keep covered with a damp cloth.
4. On a floured board, roll each ball of dough into a flat round 10 cm in diameter.(To prevent sticking when rolling out rounds of dough: slightly flatten balls and press the balls/coils lightly in flour on both sides. Shake off excess flour and roll out). Keep covered with a damp cloth.
5. To stuff paratha : Follow illustrated steps, using 5½ tablespoons of filling for each round of dough.
6. Place round on palm of hand. Cup hand slightly to form a depression in centre of round (Figure A).
7. Put 5½ tablespoons of filling on round. Lightly pat filling, spreading evenly to ½ cm from edge of round (Figure B).
8. Surround filling evenly with dough by gently opening and closing hand slightly in a pulsating motion till some edges just meet. Pinch together the edges which meet just enough to seal (Figure C). Pat sealed area to get an even thickness of dough. Repeat till round is closed fully.
9. Place stuffed round on board. Flatten slightly. Stuff remaining rounds of dough in the same way. Keep covered with a damp cloth
10. On a floured board, roll each stuffed ball gently into a flat round 15 cm in diameter. Keep on a lightly floured surface, covered with a damp cloth.
11. Heat tava on medium heat about 2 minutes for 22 cm tava/about 3 minutes for 26 cm tava.
12. Put round on tava. Cook as explained below. Cook remaining rounds in the same way. Serve hot, accompanied with curd.
13. Put round on preheated tava. Cook 1½ minutes. Top should begin to look dry and darken. (There should be a few light brown specks on the underside.)
14. Turn over with a wooden spatula. (If you can adjust the heat so that a few light brown specks appear on the underside in 1½ minutes, you will be cooking at the ideal temperature.)
15. Spread ½ teaspoon ghee all over top surface of round.
