

Mulligatawney Soup

Recipe Details

Serves:	8
Cooking Time:	03 minutes

Method

1. To cook reduced quantities: reduce all ingredients proportionately.
2. To prepare spices : Place cinnamon, coriander seeds, cumin seeds, anise seeds and fenugreek seeds in a small, heavy skillet on medium heat. Stir continuously (approximately 3 minutes) until the spices darken by a few shades and give out a stronger aroma. Grind roasted spices in a pestle and mortar or in the container of an electric coffee grinder.
3. To make coconut milk : Break open coconut by holding the coconut in one hand against a hard surface and hitting the coconut with the blunt side of a heavy cleaver all around its 'equator'. At the first sign of a crack, hold the coconut over a bowl to collect coconut water. Though not coconut milk, it makes a refreshing drink. Break the halves into smaller pieces. Slip a knife between coconut meat and the shell and pry loose the meat. Remove brown skin from the meat with a paring knife or potato
4. Heat oil in cooker for about 1 minute. Add carrot, turnip, onion, garlic and ginger. Stir fry for about 2 minutes.
5. Add remaining ingredients except coconut milk, rice and lemon juice. Stir.
6. Close cooker. Bring to full pressure on high heat. Reduce heat and cook for 3 minutes.
7. Remove cooker from heat. Allow to cool naturally.
8. Open cooker. Discard curry leaves. Mix the soup smooth in a blender or mash it through a sieve.
9. Return soup to cooker. Add coconut milk, rice and lemon juice. Stir. Reheat. Serve hot.
